

POSITIONS AVAILABLE

BOSTON

A small, established firm in the Boston area, with a close-knit staff with years of experience, seeks two attorneys.

- A lawyer admitted in Massachusetts who has environmental law, land use, real estate, or related litigation experience in the Massachusetts courts. Experience in federal courts or agency adjudicatory hearings is a plus. As this is a litigation position, a candidate must like litigation, be good at it, and be able to handle all types and stages of litigation.
- An entry level lawyer with some experience plus a strong interest in a career in environmental, land use, real estate, energy law, and related local, state, and federal administrative practice. Internships or paralegal positions are a plus. As this is a wide-ranging job, a candidate should have a demonstrated interest and direction toward environmental law.

Interested candidates should submit a letter of interest and resume to positionavailable@reba.net.
